

School Ethos Group (Formerly School Life)

The School Ethos Group met on Monday. Following a visit from the Trust RE lead, Sharon Lord, we have been advised to start following the new SIAMs framework and, as a result, updated the Terms of Reference. The new ones can be found [here](#).

Mrs. Sims gave an overview of the new framework, explaining that there are now only two judgements:

- Judgement 1 states, "Through its vision and practice, the school is living up to its foundation as a Church school and is enabling pupils and adults to flourish."
- Judgement 2 states, "The school's vision and practice are not enabling it to fully live up to its foundation as a Church school."

The core questions remain similar, but there is a more significant emphasis on the theology behind the vision statement. Rev. David has volunteered to run some training for staff to help them really understand the theological roots of the school's vision, but we would also welcome parent involvement.

If you can support the Ethos Group (1 meeting each half term), please contact the office to express an interest. If you are unable to get directly involved, we would welcome any feedback to the focus question which is posted in the WhatsApp groups prior to the meeting.

We looked at the school's provision for wellbeing and explored how oracy, relational behaviour and the PSHE scheme support our aim to create a consciously caring and nurturing environment so that children feel safe and secure, which ensures they are able to learn and flourish-

There was no feedback from WhatsApp groups.
